ETHICAL HACKING WORKSHOP

DATE: 19-02-17

TIME: 9:30am – 4:30 pm

COST-1000/- Per Head

The world questions the moral of hackers and portrays hacking in bad light. They say there is nothing called ethical hacking. Hackers claim it to be an art like any other profession is and demand the right reception. So, What ethical hacking actually is? Do not hack us to answer our question. Meeting up personally is more of an ethical deed.
